GADDAM SRIJA

Data Analyst

Hyderabad, India | +91-9032837576 | gaddamsrija005@gmail.com | linkedin.com/in/gaddam-srija-749230325 | github.com/SrijaGaddam05

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in AI & Machine Learning, with hands-on Data Analytics internship training in Python, SQL, and Pandas. Skilled in cleaning, transforming, and analyzing structured datasets to uncover trends, patterns, and actionable insights using Python, SQL, Excel, and Power BI. Built an end-to-end Job Market Intelligence platform analyzing 24,000+ job records, with additional exposure to machine learning fundamentals, NLP, Generative AI, and computer vision. Seeking an entry-level Data Analyst role to apply strong analytical and data visualization skills.

TECHNICAL SKILLS

Programming & Data Analysis: Python, Pandas, NumPy, SQL, Scikit-learn, Data Cleaning, Data Preprocessing, EDA, Statistical Analysis
Data Visualization: Power BI, Excel, Matplotlib, Seaborn, Dashboard-Ready Metrics
Database & Backend: MySQL, SQL Queries, Joins, Aggregations, Filtering, Grouping, FastAPI, Pytest
Machine Learning: Feature Engineering, Encoding, Feature Scaling, Polynomial Features, PCA, ML Fundamentals
NLP & AI: Text Preprocessing, NLP, Generative AI, Prompt Engineering
Tools: Google Colab, Jupyter Notebook, Git/GitHub, VS Code, MySQL Workbench

EXPERIENCE

Data Analytics Intern | Neoskillz *2026 (2 Months)*

- Applied hands-on training in Python, SQL, and Pandas to explore, clean, and preprocess structured datasets for analysis.
- Performed exploratory data analysis (EDA) and visualized data trends using Matplotlib and Seaborn to surface patterns.
- Practiced feature engineering techniques, including encoding, feature scaling, and PCA, to prepare data for machine learning models.
- Gained hands-on experience with MySQL for query writing and joins; completed foundational training in NLP text preprocessing and Generative AI concepts.

Customer Support Executive | Winzee (Online Gaming Platform) *May 2026 - Jun 2026*

- Tracked and analyzed high-volume customer interaction data across account, payment, and gameplay issues to identify recurring patterns and trends.
- Applied data-driven problem-solving to improve resolution speed and accuracy in a fast-paced, metrics-focused environment.
- Reported issue trends to cross-functional teams, strengthening analytical reporting and communication skills.

PROJECTS

JobMarket Intelligence - Data Analytics Platform *2026*

- Built a Job Market Intelligence platform analyzing 24,831 job records to identify hiring trends, in-demand skills, salary benchmarks, and location insights.
- Developed Python/Pandas/NumPy analytics pipelines for skill-demand analysis, salary intelligence, and Month-over-Month market growth tracking.
- Created a Career Advisor using market skill-match analysis to recommend skills based on incremental job-market lift, achieving 90.6% baseline skill matching for Data Analyst roles.
- Built an interactive FastAPI + HTML/CSS/JavaScript dashboard and automated the data pipeline with Pytest (6/6 tests passed).

MarketMind AI - Marketing Data Analytics Platform *2024*

- Analyzed structured marketing datasets to perform sentiment analysis, trend visualization, and sales forecasting, translating results into business insights.
- Applied NLP techniques (tokenization, feature extraction) to classify customer feedback and identify trend patterns.
- Documented findings in structured, stakeholder-ready insight reports.

AI Hand Workspace - Computer Vision & Generative AI Productivity System *2025*

- Developed a real-time gesture-based system (OpenCV + MediaPipe) with a data pipeline supporting low-latency, concurrent inference.
- Integrated the Google GenAI API using prompt engineering and function-calling to enable intelligent, automated feature activation.

Deloitte Data Analytics Virtual Simulation - Forage *2024*

- Analyzed real-world structured datasets using data analytics techniques to identify patterns and generate actionable insight reports.
- Delivered stakeholder-facing summaries translating data findings into clear, actionable business recommendations.

EDUCATION

B.Tech - Computer Science & Engineering (AI & ML) *2023 - 2027*

Sri Indu Institute of Engineering & Technology, Hyderabad | CGPA: 7.91

CERTIFICATIONS & ACHIEVEMENTS

- **Microsoft Office Specialist** (Excel, Word, PowerPoint) - advanced spreadsheet and data presentation skills.
- **MySQL Using AI Certification** - structured query writing, joins, aggregations, and AI-assisted database tasks.
- **Python Essentials 2** - Cisco Networking Academy in collaboration with OpenEDG Python Institute; multi-module Python 3 development, OOP, and real-world application design (Issued Sep 2026).
- **Apna College Alpha Program** - Data Structures & Algorithms with Java (Certified); 50+ LeetCode problems solved.
- **Smart India Hackathon** - Team Leader | NxtWave Buildathon Participant | Academic Poster Presenter (AI/ML).
